

**United Way
Cape Breton**

UWCB's Community Investment application is now CLOSED.

Our next call for applications will begin next January/February 2024.

The application is typically due at the beginning of March.

We create a Community Investment budget based on fundraised dollars.

United Way Cape Breton uses the e-C IMPACT platform for funding applications. All potential applicants are required to sign up for a profile that will be unique to your organization. Your profile needs to be approved. Once your profile is approved, we will provide access to the application.

If you require assistance with the platform or filling in the application, please contact Bailey at bailey@unitedwaycapebreton.com to set up an appointment. Bailey is available for appointments once the application process goes LIVE.
